Brief description of the PUBLIC AUCTION procedure

The sale of stake by the public auction is carried out by the Auction commission which is established by the Privatization Agency and the Share Fund. The Commission supervises the sale by auction, registers auction participants, declares auction unsuccessful, signs the minutes and carries out other activities important for auction performance in accordance with the Law. The conditions for auction to be carried out have been fulfilled, if at least one person has obtained the status of an auction participant and if it is presented personally or by an authorized representative. At the time ordered for the PUBLIC AUCTION opening, the auctioneer shall open the bidding.

If there is more than one person at the bidding, the auctioneer shall announce the initial price, as well as each further increase. In case none of the interested buyers reacts after the third call for acceptance of the newly established price, the auctioneer declares the auction finished by hammering. The selling price becomes the highest offered value, and the participant who has been the first to offer the highest price is declared a buyer. If there have not been interested parties after the announcement of the initial price, even after the third call, the auction is declared unsuccessful and participants lose the right to be returned the deposit.

If only one party who has obtained the auction participant status attends the bidding, that party is invited three times to accept the initial price. If the party accepts the initial price, it is declared a buyer and the initial price becomes at the same time the selling price. If the participant does not accept the initial price, the auction is declared unsuccessful and it loses the right to be returned the deposit.
